Updated 8/11/2020

The following are the guidelines we are required to abide by while operating our studio~

- Dancers are to enter through the front door entrance of the Dance Tech building. This will be a drop off arrangement only. Dancers are required to wait outside the door until a DTS employee brings them in 1 at a time. Parents/siblings are required to stay outside of the building. (Please refer to the Policies & Disclosures document for exceptions permitted)
- Dancers are required to wear a mask/mouth nose cover while entering the building.
- Dancers are to use the hand sanitizer or their own upon entering the building.
- A DTS employee will take the dancer's temperature with a medical grade, non-contact infrared thermometer.
- Dancers need to bring a filled, water bottle with their name clearly labeled (no glass).
- Dancers are required to arrive in their 1st dance class of the day uniform with hair pulled back- ballet buns for ballet classes.
- Outdoor shoes will be left outside each dance room. Dancers are required to bring their personal items into the dance room and place along the floor in the back of each studio.
- Once in the dance room, dancers may remove their face coverings and hang them on the boards being provided in each dance room. Masks are to be worn when leaving their dance room for any reason and apply hand sanitizer before entering back into the dance room (provided by DTS outside each dance room).
- All teachers and staff will be wearing face coverings in all areas of the studio. They have the option of wearing their mask while teaching. Teachers/staff will follow the same safety/health protocols as their students.
- Pick up/exiting the building will be from the back door entrance of the building- the door by the cubbies and kitchen. Dancers are expected to exit the building immediately after their last class to their ride waiting outside. We HIGHLY recommend dancer's rides to plan on arriving at least 10 min before the end of their class. Dancers will not be permitted to wait inside for late pickups.
- Each staff member and teacher at Dance Tech is committed to these safety precautions and take our responsibility seriously.

We will have the studio phone with us at all times.
Please call with any questions or additional help needed.
